

Family Connects National Snapshot

August 2021

Currently, there are 33 sites in active planning or implementation stages across 14 states. Sites in 3 additional states are exploring the feasibility of implementing Family Connects and we are in early discussions with 9 potential new sites.

Calendar Year 2020 Data

Total Integrated Home Visits (In-Person + Virtual): 12,514.

The nurse home visitor assigned 97% of families to a matrix score of 2 or higher (the rating scale is between 1-4, with 4 being a severe risk) on at least one protective factor, indicating a need for additional education or a referral to a community support.
